Codebook

1	**(1) we can infer the tweeter is in favor of COVID-19 vaccine**
2	This could be because the tweet in **ANY** part of it has any of the following but does not have **ANY** from (2):
3	The tweeter thinks the vaccine will be safe (or will work) and we can infer they are in favor of the vaccine
4	The tweeter is willing to take COVID-19 vaccine when it becomes available and we can infer they are in favor of the vaccine
5	The tweeter supports someone/something who promotes COVID-19 vaccine (President Trump for example) or the tweeter is against someone/something who is against the COVID-19 vaccine we can infer they are in favor of the vaccine
6	The tweeter is in favor of vaccines in general and we can infer they are in favor of COVID-19 vaccine (Or in favor of another vaccine?)
7	The tweeter is reporting news that support the vaccine and we can infer they are in favor of the vaccine
8	
9	**(2) we can infer the tweeter is against COVID-19 vaccine**
10	This could be because the tweet in **ANY** part of it has any of the following but does not have **ANY** from (1):
11	The tweeter thinks the vaccine is dangeous or has safety concerns regarding COVID-19 tweets (Or think they do not work?) and we can infer thay are against the vaccine
12	The tweeter thinks a safe vaccine needs more time and we can infer they tweeter is against the COVID-19 vaccine
13	The tweeter is not willing to take the vaccine when it becomes available and we can infer they are against the vaccine
14	The tweeter thinks the vaccine is being rushed and this is not acceptable and we can infer they are against the vaccine
15	The tweeter against someone/something who promotes COVID-19 vaccine (President Trump for Example) or supports someone who is against the vaccine we can infer they are against the vaccine
16	The tweeter is against all vaccines and we can infer they are against COVID-19 vaccine
17	The tweeter does not think vaccines work and we can infer they are against COVID-19 vaccine
18	The tweeter expressed that they do not trust COVID-19 vaccine and we can infer they are against the vaccine
19	The tweeter thinks the vaccine is used to track people or a part of propaganda and we can infer they are against the vaccine
20	The tweeter is reporting news that shows the vaccine is dangrous or unsafe and we can infer they are against the vaccine
21	The tweeter think the vaccine is a fraud and we can infer they are against the vaccine
22	
23	**(3) we can infer the tweet has unclear stance towards COVID-19 vaccine**
24	The tweeter expressed both (1) and (2) in the tweet
25	The tweeter expresses they will not take the vaccine unless a condition is met
26	The tweeter is simply reporting news regarding the development of the vaccine
27	The tweeter has a stance towards other vaccines but the stance towards COVID-19 vaccine cannot be inferred.
28	The tweeter can't decide what their stance is (line 15)
29	The tweeter is expressing an opinion about the discussion of the vaccine and not taking a stance towards the vaccine
30	The tweeter does not express a stance towards the vaccine
31	The tweeter is asking a question about the vaccine but no stance can be inferred
	Note: Target of Interest/evaluation : Upcoming COVID-19 vaccine (general and not specific)
